REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

References Baier (5,251,237), Liau et al (5,909,426), Kim (7,136,111), Erdogan (US 2003/0112860) and Kokkomen (US 2005/0084044) are cited because they are pertinent to the method and apparatus for estimating channel length. However, none of the cited references teaches or suggests, in combination, the arrangements of a frequency response square computing circuit, an estimating circuit for estimating the channel length based on the input signal that is transmitted in a symbol rate and the first frequency and the second frequency are $1/M$ and $1/N$ times of the symbol rate respectively, where M and N are in the order of 2 as recited in claim 1 and the corresponding method steps of the method claim 13 or the arrangements of the frequency response square computing circuit, magnitude normalization circuit and comparing circuit for estimating the channel length as recited in claim 7 and further limitations of their respective dependent claims 2-6, 8-12, and 14-18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
